OPPOSING THE QUAKER DAM.

MR. ARNOUX DEMANDS MORE DETAILS. ENGINEER CHURCH QUESTIONED-NO SUFFICIENT

A number of persons were present yesterday to make statements before the Aqueduct Commission in regard to the proposed Quaker Bridge Dam. Fordham Morris asked the commission whether or not it had any maps or plans before it showing precisely where the aqueduct was to go, the land to be taken in easement or fee, and other particulars, so that property-owners could tell exactly hew it would affect their rights.

Mayor Edson said that such maps were being prepared, but that the line must be officially approved before such maps could be made; and that the Corporation Counsel had advised that such maps were not legally necessary for the purpose of a public hearing. DATA TO MAKE AN ESTIMATE ON.

maps were not legally necessary for the purpose of a public hearing.

Mr. Morris remarked that with all due respect to the Corporation Counsel, he differed with him on that point. The law required definite and particular maps and plans: and in behalf of the New-York City and Northern Railroad and other clients he entered a formal protest against the commission proceeding without such maps and plans.

Ex-Judge Arnenx said that the papers before the rommission were not such as the law required. He thought that it was due to the citizens and taxpayers that such definite maps, plans and estimates should be submitted before they were asked to give their views. He wished to examine Chief Engineer Church to show how far short of the actual cost the estimates before the commission would fall. Mr. Church was then sworn.

Ex-Judge Arnenx—Are the only maps in regard to the

Ex-Judge Arnoux—Are the only maps in regard to the Quaker Stridge Dam now before the commission these contioned in the printed report! A - Yes, sir.

Mr. Amoux asked Mr. Church to point out in the report any estimate for the subsidiary dans. After examining the report Mr. Church said that he did not find such an estimate there; but that estimates had been made, although they were not included in the report.

Q—Have you any such plans and estimates from the Pable Works Department as called for by the law, in regard to the cost of these subsidiary dams! A—No regular report, but verbal statements.

Q—To You think it possible to build the dam on such a foundation as that delineated on this map! A—It would

Mr. Arnoux said that Mr. Francis, a recognized anthority among engineers on such a question, testified before the Mayor's Water Commission that the thickness of a dam at the bottom should equal its height. If that were done in the case of the Quaker Bridge Dam the foundation would have to be extended on the map, and it would add largely to the cost. Mr. Church said that he did not think Mr. Francis would require such a thickness at the bottom in the case of the Quaker Bridge Dam. To seme other questions asked of Mr. Church relative to the method of carrying down the masoury to the foundation of the dam, he replied that they were matters of detail which he did not think he should be required to answer. Mr. Arnoux said that Mr. Francis, a recognized

did not think he should be required to nuswer.

Commissioner Baldwin - We have had all this information from Mr. Charch. Why dor't you bring on your engineers and produce additional information!

Mr. Amoux - We propose to show by these maps and plans and by Mr. Church that the requirements of the law have not been compiled with. When this dum was first brought up here the cost was placed at \$4,500,000. Since then an estimate has been made of \$6,700,000. Since then an estimate has been made of \$6,700,000. When we want to enter into narriendars we are told that it is a matter of detail. That is the way it was with the Firn-blyn Bridge. The plans were changed after the cost. I propose to show that the same thing may be done here, because these plans and estimates are incorrect. Commissioner Dowd - These plans were submitted to the cosmission by the Department of Public Works.

Mr. Armaux - Does the commission know how it is proposed to carry down the masoury to the foundation of the dam!

sdoner Doed-Well, that depends on the kind

ommissioner Dowd-End we can handly or change the use at any time.

If, Arnoux-Certainly. But it was intended that the bits should know beforehand by plans definite enough show the cost. This question of how the missoury at he carried down is no queetion of defail. It may at \$1,000,000 to the cost of the dam. What will be the assure of the water at the surface of the rock in a dam the proposed height of these maps to show the bridges he built, and the roadways that will be submerged built, and the roadways that will be submerged built, and the plans. There are maps that show the likes.

ces.

What is the fall of the water from the foot of the on Dan to Quaker Erdige! A—Ninety-four feet.

Has any estimate been made for the water power is that would be destroyed! A—No. I think that and use the second state of the second state o

James E. Wood said that citizens had been charged with delaying the work, but there was nothing before the commission which any responsible contractor could make an estimate on. Commissioner Baidwin-The eagineer can answer all the stions in regard to the matter about which you want

Commissioner Baldwin—The eachier can above all questions in regard to the matter about which you want to know.

Mr. Arnoux—That is all very well. We do not want any verbal repites, but estimates and plans that can be examined by other engineers, as required by law. The present of water from this dam 287 feet high will be such as to sweat through east from half at mach thick. The concrete will have to be had, at mach greater devid than was that in the formdations of the towers of the Broodlyn Bridge, and you at know what att confineering problem that was. These estimates here make the cost for laying concrete in the foundations of the dam the summ as above ground. The thing is abourd.

Commissioner Speneer—It may be that the criticism is just and that the please ought to be such as would be submitted to a contractor. The Public Works Departation of the Copporation Comesci.

Robert L. Darrugh—I see no sufficient data here to make an estimate upon. I think any sensible contractor would agree with me as to that. The fluores for such work are generally much too low. Mr. Ch. So hashows that he does not know what would be the cost of work in that foundation. It will cost at least dyable the price to put contracte in the foundation as above ground.

Mr. Chareft—I think that you are mistaken.

Mr. Darrugh—I have been done more experience in that kind of work than Mr. Church. The department figures are too low for concrete. It would cost at least facilities the foundation as above ground.

Mr. Chareft—I think that you are mistaken.

Mr. Darrugh—I have been amile the price to put that kind of work than Mr. Church. The department figures are loo low for concrete. It would cost at least facilities the price to put that kind of work than Mr. Church. The department figures are loo low for concrete. It would cost at least facilities the cost of the cost of the condition as a bove ground.

Mr. Darrugh—I have been more experience in the foundation as above ground.

Mr. Darrugh—I have been more superinged in the first degree, in

issioner Thompson-Then, that would add \$800,-

One is the cost.

Mr. Deursch-But the great item, would be in the cost of the coffer dam and in Receiving the banks up, and the water set. That would be more than the massiry.

William H. Webb said that the method of esti mating followed by the Public Works Department putting down \$1,000,000 to cover cost of ground, bridges, etc., without specifying a single detail, was

The hearing was adjourned until to-day.

A CELESTIAL TRAMP.

The Chinaman in New-York is never out at the clows. He usually wears a staid and contented expression of countenance, as though he were on the best of terms with the current coin of the country. But last evening one was observed walking along Sixth-ave, in the midst of the snow and rain, who had lost all sleekness except that which the storm mad given him by saturating his clothing. He was ragged and absolutely feriorn. He was walking on the uppers of his saudals and covered his hands carefully in the tattered folds of his sleeves. But it was not for long. A liquor store confronted him and on his right flank there was a row of kegs. He eyed them wistfully for a moment and then glided across the slippery pavement toward them. He drew one of his hands from his sleeves and with it came an ancient tomato-can. He tipped a keg in the most approved fashion, received the dregs in his can, and stole into the area of a house in an adjoining street and regaled himself in peace. He was a Chinese tramp, but he had fallen deep into the wicked ways of his American brother. A CELESTIAL TRAMP.

the DeKalb-ave, line of street cars. Bockleman has a suit for \$10,000 damages against ex-Colonel Austen for the indignity put upon him at the State Camp, the trul of which is set down for to-day. Mrs. Bockelmansaid that she thought that might have something to do with her husband's disappearance, as he had been offered \$100 not to press the suit. He had not seemed like the same man since the drumming out, she said, and he was much discouraged at his failure to get work.

NOT ENFORCING THE EXCISE LAW. NOT ENFORCING THE EXCISE LAW.

D. J. Whitney, of the Society for the Prevention of Crime, wrote to President French, of the Board of Police, on March 28, complaining that the police did not enforce the Excise law at Nos, 145 Wooster-st., 59 Bleecker-st., and 106 East Fourteenth-st. He stated that agents of the society had witnessed the sale of liquor on Sundays at No. 145 Wooster-st., where dancing was kept up until late hours at night, They also had purchased lauor at No. 59 Bleecker-st. after the license of "The" Allen, the proprietor, had expired. Concerning Huber's oyster house, at No. 196 East Fourteenth-si., he wrote that the place was not licensed, yet liquors were sold there freely. He enclosed a printed bill of fare as evidence, and wrote the following in reference to it:

You will find by the enclosed bill of fare printed for

lowing in reference to it:
You will find by the enclosed bill of fare printed for March 26, 1884, that he offers all kinds of liquors. Now there is no use of Mr. Murray or George W. Walling telling me that liquor is not sold there. This printed bill of fare tells the story too plain. The Board of Excise have refused to grant them a license, and the known character of the place is a blot on that part of the city.

reinsed to grant them a license, and the known character of the place is a blot on that part of the city.

Mr. Whitney's complaints were referred to the Captains of the Eighth, Fifteenth, and Seventeenth Precincts. Captain McDonnell reported vesterday that No. 145 Wooster-st, was the Hotel del Campidoglio, kept by B. Bartini. The place has a license, and is regarded by the police as respectable. Demeing by private parties only is permitted there. Captain McCullagh sent a report that Huber's restaurant is frequented by respectable people, but the police have kept a close watch upon it because the proprietor has no license to sell liquor. Six arrests for violations of the Excise law have been made in the place by order of Captain McCullagh since November 15, 1883. Captain Brogan will send a report to Mr. French to-day that the police of the Pifteenth Precinct are taking all possible pains to prevent the law from being violated at No. 59 Bleecker-st.

ASSIGNING HIS SALARY PROMISCUOUSLY. ASSIGNING HIS SALARY PROMISCUOUSLY.

The report that Assistant District-Attoracy John
R. Fellows had made assignments of his salary for
the mouth of March to three different persons
seemed to disturb somewhat that sangune here of
the Confederate cause. When a Tribune reporter
asked him yesterday about the matter he said:
"Suppose there are not three but thirty assignments
for the same mouth, what business is it of the public? I do not see that any one but the assignees
should be concerned." Have you any explanation to make ?" was

"Have you any explanation to make?" was asked.

"No, I have not"; then, after a pause—"except that it was a misunderstanding that has been corrected by the assignees themselves."

Ex-Assistant District-Attorney John O'Byrne was at the District-Attorney's office and explained to District-Attorney Olney that Golonel Fellows had given him an assignment for a month's salary leaving the time blank, and that Mr. O'Byrne's son had filled up the blank with the word "March."

Mr. Olney was reported as not much pleased with the financial methods of his assistant. He said, however: "It is said to be all a mistake."

MEMORIAL WINDOWS IN THE CATHEDRAL.

Among recent gifts to St. Patrick's Cathedral are two large stained glass windows in the south side of the sacristy, presented by J. F. Loubat. They are handsome works of art and doubtless would have attracted more public notice were they in the body of the Cathedral. One is a memorial of the giver and bears the name Joseph Florinand Loubat. It represents the death of St. Joseph, who lies on a conch over which hover two angels. The Saviour is pictured at the bedside and also a woman kneeling. At the top of the window is a scroll with the mscription in Latin · "Blessed are the dead who die in the Lord."

Three subjects are represented in the other window, the central one being in memory of Joseph Alphonse Loubat, Mr. Loubat's tather. There is a large representation of St. Alphonse in his sacred vestments, and beneath is a seene in his Fle where he performs a miracle. Another panel in the window is in memory of Theresa Almee Lou at, and it portrays St. Theresa and the scene at her leath-bed. The opposite panel is given by Susan Elizabeth Loubat. The subject is St. Susanna, portrayed as a beautiful young woman. A small panel shows a scene in her life when the angel protects her from the infidel. MEMORIAL WINDOWS IN THE CATHEDRAL.

THE MYSTERY OF JAMES HALPIN'S DEATH.

Coroner Menninger held an inquest yesterday in Brooklyn regarding the death of James Halpin, who was suited before as \$200. That department to farmish such definite plans and specifications as would be furnished to contractors. Already the cost has been increased \$2,000,000. These estimates you say are liberal, but there is nothing to show in what respect, All the information we now have have to proceed upon might have been given in forty-eight hours. Engineers who have come here to examine these plans and estimates you first they can give no testimony on such many cost \$56,000,000. We want to see the definite plans you propose to follow, that the public may know whether or not the dam will cost the city. There are many necessary thems constituting in the plans was still be as the city. There are many necessary thems considered in the plans was stilled to the authority of Mr. Darrych that Mr. Chartel made an estimate of what it might even if the masonry were to est cortain prices which some body formished.

Mr. Church—I don't know who gave me the nrices. I thought it was Mr. Potter, Bat I shundled he estimate for this dam a saft there. But I shundled he estimate for this dam was \$6,000,000. He morely made an estimate of wors \$6,000,000. He morely made an estimate of what it might even if the masonry were to est cortain prices which somebody formished.

Mr. Church—I don't know who gave me the nrices. I thought it was Mr. Potter, Bat I shundled he estimate for this dam was \$6,000,000. He morely made an estimate of wors \$6,000,000. He morely made an estimate of

H. M. Flagler, J. A. Bostwick and W. G. Warden have been re-elected directors by the certificate-heiders of the Standard Oil Trust Company. The Hamburg-American steamship Rugia, on her last trip from Hamburg, was delayed twenty-six hours by derangement of her machinery.

General E. L. Viele will read a paper before the Military Service Institution at Governor's Island to-day, entitled "Camp and Garrison Sanitation." Cotton speculators were in better spirits yester-day. Prices advanced from ten to eighteen points, on small transactions, and there was considerable

THE SIX DAYS' MATCH.

There will be eleven entries in the six days' walk at Madison Square Garden on April 28, the entry of George Harris having been received yesterday by Mr. Busbey by mail from Brookville, Vt.

ARGUMENTS ON INDICTMENTS POSTFONED.
The cases of Deputy Sheriff McGonigle, Clerk
Wortheimer, Warden Bowe and Deputy-Warden
Kiernan, indicted with Sheriff Davidson, have gone
over to Friday when they will be argued before

the Jefferson Market Police Court yesterday refused to prosecute him. The Justice dismissed the case, and the two left the court room together.

THE LARGEST MAIL EVER SENT TO EUROPE.

The largest European mail ever dispatched from the New-York Post Office was forwarded by the steamship Eider, of the North Germu Lloyd Line yesterday for Southampton. It cold is sed 399 bags of letters and 226 bags of newspapers, in all 625 bags. Of these 267 bags were from New-Zealand and Australia. and Australia.

and Australia.

RMADY FOR TROUBLE IN THE STOCK EXCHANGE.
Six out of a class of twenty-three members of
the Stock Exchange who have been receiving instructions in first aid to the injured during the
winter, have passed the examinations and are now
declared as competent to render "first aid." They
are Lansdale Boardman, John S. Bussing, William
B. Beckman Malcolm Campbell, J. A. Reynolds,
and R. H. Thomas. A PARDON FOR POLICEMAN SMIT

A strong pressure has been brought to bear upon Governor Cleveland to pardon Policeman George Smith, whose conviction of assault upon Jacob Sharp in 1887 was affirmed recently by the Court of Appeals. It was stated yesterday that Smith had been pardoned and that he would be directed of Appeals. It was stated had been pardoned and tha to report for duty again.

NEW STEAMSHIP LINE TO DENMARK.

Slocovich & Co., of No. 74 Broad-at., have been made agents of a passenger and freight steamship line to run between this port and Stettin, touching at Copenhagen. The Katie, which will be the first steamer, will sail from Stettin on April 25, to be followed by the Martha, not yet launched, in the latter part of May.

Assaulting an old woman.

Amelia Barca, an aged woman living at No. 16 Greenwich-st., on Tuesday evening was struck down by John Smith, age twenty-seven, of No. 2 Carlistest., and John Gibelia, age twenty, of No. 492 Waterst., and robbed of \$4 50. Before Justice Duffy in the Tombs Police Court yesterday the it jur d woman identified them, and they were committed in default of \$2,000 bail each.

AMENDMENTS TO THE IMMIGRATION L. W.
The Committee on Commerce of the House of
Representatives will give a hearing at Washington
on Saturday to those interested in the new bill on
immigration. Emigration Commissioners Stephenson, Ul ich, Taintor, Hauselt and Lynch have
been appointed a committee to advocate the passage of the bill.

age of the bill.

THE CASE AGAINST JOHN A. GROW DISMISSED.

The indictment for obtaining money under false pre ences found against John A. Grow, a lawyer, who was recently tried in the Court of General Sessions was dismissed yesterday by Judge Gildersleeve. Walter M. Mayhew, a young Englishman, was the complaining witness. The jury on the trial disagreed, standing seven for acquittal to five for convertion.

for conviction.

THE PROBATE OF AUGUSTUS SCHELL'S WILL.

James W. Fellows, the executor of the will of
Augustus Schell, filed a petition yesterday for the
admission of the document to probate. The heirs
of the estate are Anna, Robert and Edward Schell,
James W. and Richard C. Fellows, Julia Coddington, Emily Hoyt, and Emma Fellows. All of the
beneficiaries live in this city, save Emma Fellows,
who lives in Stamford, Conn. The citations are
made returnable on April 14.

made returnable on April 14.

FUNERAL OF SYDNEY PHGENIX INGRAHAM.

The body of Sydney Phgenix Ingraham was buried yesterlay in the family lot at Woodlawn. The funeral was held at his residence, No. 2,109 Fith-ave. The Key, George H. Smyth officiated. Among those present were Jordan L. Mott, Philip W. Copper, John A. Dedee, Clarence S. Dorsett, G. C. Hopkins, Philip Wilson, S. B. Keuyon, James W. Randall, Joseph O. Brown, Judge George L. Ingraham.

CHARGED WITH FORGING A MONEY-ORDER.
Beredetic Perschino and Pasquale Passero were
arrested yesterday on a charge of forging a moneyorder. Perschino, it is said, secured a money-order
for \$82, drawn in favor of Girando Matto, and induced Passero to forge Matto's name to it. They
both went to the postoffice for the money, and
Perschino, it is said, gave Passero \$12 of the
amount, retaining the rest. They were held for examination by Commissioner Shields on complaint of
Post Office Inspector Barrett.

Post Office Inspector Barrett.

EXPRESSING REGRET AT MR. LEYPOLDT'S DEATH.

A meeting of publishers and dealers in books was held at the store of A. C. Armstrong & Son, No. 714

Broadway, yesterday, to take action on the death of Frederick Leypoldt, the Editor of The Publishers' Weekly. Among those present were Henry Holt, James D. Baker, Peter Carter, A. D. F. Randolph, G. H. Pufnam, A. C. Armstrong, J. B. Pott, J. C. Derby, R.R. Bowker and O. B. Brunce. Resolutions were adopted expressing regret at the loss which the book trade had sustained.

The book trade had sustained.

How a widow lost her wedding hing.

Elizabeth Wittmer, age thirty-three, a widow living at No. 153 West Twenty-eighth-st, says that she received a visit from John Coch, of First-ave, and Sixtieth-st,, on March 27, and that he placed her wedding ring on his fluger and took it away with him, under the presence that he could not get it off. In the Yorkville Court yesterday Mr. Coch told Justice Murray that Mrs. Wittmer took advantage of leap year and gave him the ring as a token of their engagement. He was held in \$100 bail to answer.

AN ACCUSED SALESMAN ESCAPES DESCRIPTION.

THE LIGHTING OF THE CITY.

THE GAS Commission, composed of the Mayor, Controller and Commission or of Public Works, met yesterday for the purpose of awarding the contracts for lighting the streets and public buildings. The entire amount appropriated by the Board of Estimate and Apportionment was \$673,000. The bids for electric lighting were in excess of the amount appropriated, and the Commission adjourned for one week. It will be necessary to reduce the number of electric lights from that originally contemplated. Alderman Miller asked that Bleecker-st. from Broadway to Eighth-ave., and Fontteenth-st, from Eighth-ave, to the North Kiver and Gansevoort Market be lighted by electric lights,

BROOKLYN.

Mrs. Ella J. T. Roche has recovered \$2,000 for in-uries received by having her arm bruised in a De Kalb-ave, street-car.

Dr. James F. Feeley was fined \$1 and \$10 costs vesterday for refusing to obey a subporna requiring him to testify in the Supreme Court. Some of the citizens of New-Lots conferred with Mayor Low yesterday relative to the amexation of the town to Brooklyn, and the draft of a bill to effect that object was discussed.

Mrs. April 1.

Mrs. Annie F. Good, of No. 211 South Second-st., has begun a suit for limited divorce against Jacob A. Good on the ground of crueity and general neglect. They were married in April, 1873. Mrs. Good is about to be admitted to membership in the South Second Street Methodist Episcopal Church. South Second Street Methodist Episcopal Church.
John Geils, age thirty-nine, a collector for Beadleston & Woerz, brewers, committed smeide in his bedroom yesterday norming, at No. 94½ Guernseyst. While his wife was dressing he got his revolver and fired a bullet in his right temple. He died almost instantly. It is supposed that he was insane through grief for the death of a favorite child four month's ago. He leaves a wife and four children.

Mrs. Elizabeth Geischen was arrested vesterday for bigamy, on complaint of Mrs. Frederick Weber, of No. 418 Eighteeuth-st., who charged that she married Mrs. Weber's husband on October 3, 1883, knowing him to be married. Weber was arrested afow weeks ago for bigamy on complaint of his first wife, and he was sent to Sing Sing for two years. Mrs. Geischen avers that she believed Weber to be divorced.

INDIGESTION AND CONSTIPATION

ARE CURED BY AYER'S PILLS.

The Only Cure

Ayer's Pills Ager's Pills

Are the best medicine to accomplish the necessary work of cleansing, stimulating and restoring. They are more thorough in their purgative effect than any others, yet are not violent in their action, exercise a powerful influence for good upon the other vital organs as well as the bowels, and effectually

Ager's Pills

Ager's Pills

Do this more effectually than any other. Their duratic effect is not less marked and beneficial than their purgative power. Not only do they, at once, by a moving does, free the clogged, and rouse the torpid organs, but their continuous effect, when taken in small doses, is to regulate the machinery of life, and

Banish Disease.

For Billiousness, Jaundlice, and other evil consequences of hepatic disorders, there is no remedy so prompt and thorough as Ayen's Pills. They are also, by their into the circulation during attacks of constitues, of the greatest value to women in the most critical stages of existence.

To all the several varieties of Piles, and for the many Cutaneous Disorders produced by Blood Impurities thrown into the circulation during attacks of constitues, of the greatest value to women in the most critical stages of existence.

Brown, Oceana, W. Va.

"One of the best remedies for bilious derangements that we possess."—Dr. Wm. Pressort, Concord, N. H.

"Active, searching, and offsets."

"A safe and reliable Cathartic."—Dr. W. C. King, Spencer, Mich.

PRESCOTT, Concord, N. H.

"Active, searching, and effectual, but not griping or drastic."—PROF. J. M. LOCKE, Céncinnait, O.

"As a mild and thorough purgative they cannot be excelled."—J. O. THOMPSON, Mount Cross, Va.

"They have entirely corrected the costive habit and vastly improved my general earlie."—Rev. F. B. HARLOWE, Atlanta, Ga.

"Better than any other Cathartic."—M. P. SUMMEROW, Austin, Texas.

Dyspepsia

Is one of the most daugerous of the discases caused by these cemplaints. Affecting as it does the centre of life—the stomach—it quickly deranges and imperils the whole system, physical and mental. Its symptoms are manifold, and many of them so serious that they are generally regarded and treated as special maladies.

Kidney Diseases

Also spring from disorders of the digescive functions, and are not only exceedingly painful in themselves, but have symptoms, such as Dropsy and Rheumatism, which are of the gravest characteristic functions. The work of the kidneys is the purifying of the blood. When, through disease, they cease to do this,

Prompt Relief The Only Cure

For the various forms of dyspeptic discases, is in a medicine that will remove its primary cause, by restoring the stomach, liver, kidneys, and bowels to a healthful condition. Any other treatment is as useless as an effort would be to make a watch keep time by simply gilding its case, when it had a broken main-spring.

Prompt Relief

Prompt Relief

Prompt Relief

Prompt Relief

Aust be accorded to avert most serious consequences. Medicines that full their pain by dulling their sensibility, or that stimulate them to unnatural activity, do infinitely more harm than good. To restore them to health, the kilneys must be cleansed, their inflammation allayed, and their strength restored.

Ayer's Pills

Restore Health and Vigor.

He Who Lives Learns, and Who Learns Lives.

"I am using AYER'S PILLS in my practice, and find them excellent."—DR. J. W. BROWN, Oceana, W. Va.

"Adapted to all the disorders which can be cured by the judicious use of a physic."—DR. SAM'L MCCONNELL, Montpetier, Vi.
